Subject: Online training for lifting operation

Sub: introduce online training for lifting operation

Dear all,

Due to the extraordinary circumstances of COVID-19 outbreak which has impacted the regular delivery of site-based training. PDO lifting and hoisting discipline is pleased to introduce online training for lifting operation. **The training will be delivered virtually through the local accredited training institutes by 26 April 2020.**

The aim of online training:

- To maintain a consistent level of competency, health and safety during these exceptional circumstances
- To support the workforce by enabling existing ABA card holders to renew expiring cards for a period of 12 months
- To allow training providers to continue to deliver high quality training, irrespective of extraordinary circumstances.

Please cascade this message to all concerned parties.

Stay safe!

Regards,

Fahad Al Raba'ani – UEQ3
